Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
Yellow highlighting indicates concentration greater than human health industrial screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
BOLD indicates concentration greater than ecological screening criteria.
Yellow highlighting indicates concentration greater than human health screening criteria.

Molybdenum	7439-98-7									
Nickel	7440-02-0									< 5
Nitrate	14797-55-8									3600
Nitrate & Nitrite										
Nitrite	14797-65-0									< 1000
Phosphorus	7723-14-0									730
Potassium	7440-09-7									5790
Selenium	7782-49-2									< 15
Silicon	7440-21-3									
Silver	7440-22-4									< 7
Strontium, Stable	7440-24-6									410
Sulfate	14808-79-8									51400
Thallium (Soluble Salts)	7440-28-0									< 20
Titanium	7440-32-6									< 10
Uranium	NA									
Uranium-234	13966-29-5									
Uranium-235	15117-96-1									
Uranium-238	7440-61-1									
Zinc	7440-66-6									< 50

Total Settleable Solids				< 0.2			< 0.2			< 0.2

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
BOLD indicates concentration greater than ecological screening criteria.
Yellow highlighting indicates concentration greater than human health screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
"<0" = Result is non-detect, reporting limit not available.
BOLD indicates concentration greater than ecological screening criteria.
Yellow highlighting indicates concentration greater than human health screening criteria.
