BOLD indicates concentration greater than ecological screening criteria.

Yellow highlighting indicates concentration greater than human health residential screening criteria.

Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

BOLD indicates concentration greater than ecological screening criteria.

Yellow highlighting indicates concentration greater than human health residential screening criteria.

Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:

< = Result is non-detect, less than the reporting limit given.
Yellow highlighting indicates concentration greater than human health residential screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:

< = Result is non-detect, less than the reporting limit given.
Yellow highlighting indicates concentration greater than human health residential screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.

Notes:
< = Result is non-detect, less than the reporting limit given.
BOLD indicates concentration greater than ecological screening criteria.
Yellow highlighting indicates concentration greater than human health residential screening criteria.
Orange highlighting indicates concentration greater than human health residential and industrial screening criteria.
