Reference: Letter from D. L. Dicks, MDNR Hazardous Waste Program, to S. Chandler, NNSA-KCFO, dated December 30, 2015, subject: Indian Creek / Blue River Fate & Transport Study, Bannister Federal Complex - EPA and MDNR Review Comments

The Missouri Hazardous Waste Management Facility Permit (MO9890010524) requires the preparation and submittal of a PCB Fate & Transport Study (Schedule of Compliance IX). Consistent with permit requirements, a draft Fate & Transport Study, August 2015 was submitted for agency review. Agency review comments were provided with the referenced letter and requested that responses to comments be submitted within 45 days. Consistent with Permit requirements two hard copies of the report and response to comment table are attached. In addition, the report and response to comment table can be downloaded from the following website:
